The New Hampshire Register and Business Directory.

SPECIAL NOTICE TO PURCHASERS.

THE New Hampshire Register, beginning with this issue for 1901, will hereafter be published at Concord. The date of publication has been changed to April, thus allowing the changes in March, for town officials, school boards, and the many appointive state officials and changes made by the legislature, to be inserted. The Register for 1901 has all the changes in town officials made by the March elections, the new supreme and superior courts, with the times of holding thereof, and many other changes which would have been impossible to have been inserted if the book was issued in January, as heretofore.

Many improvements have been made in the arrangement and classification of matter in each town and county, and it is believed that from now on the Register will become more and more valuable as a book of reference.

The thanks of the publishers are due to the many who have kindly aided in making the Register so valuable a directory. Suggestions and corrections will be gratefully received at any time.

Patented April 6th, 1897. Other patents pending.

We are also owners of the "SMART" AUTOMATIC NUT LOCK, patented March 15, 1895, No. 600,748; and the "SMART" ADJUSTABLE HANGER FOR PICTURE FRAMES, etc. Railroad men pronounce this nut lock the safest and surest device of its kind on the market. It is, as its name implies, an automatic nut lock.

The adjustable hangers are designed to take the place of screw eyes on picture frames. By their use a picture may be tilted to any desired angle, and may be raised or lowered without marring picture or wall, tying or untying the corner.

We are prepared to negotiate the sale of these patents outright, or to grant licenses to manufacture on royalty or otherwise. We respectfully solicit correspondence relative thereto and will be pleased to furnish copies of these patents and samples of the patented articles to parties interested.

BUSINESS DIRECTORY OF TOWNS.

Alphabetically Arranged.

PRELIMINARY INFORMATION.

1. The names of all the Towns and all the Post Offices in the State, except those which have North, East, South, West or Center prefixed to the names of the towns of which they are a part, are here alphabetically arranged.
2. For villages above excepted, look under the name of the town. But East Kingston, North Hampton, South Hampton and Westmoreland are towns.
3. After the name of each town, you find the name of the county in which it is located, the population in 1900, the direction and approximate distance from Concord and from the Shire town of the county, the way of reaching it by rail, the town officers and the professional and business men, arranged under different heads, as nearly alphabetically as is convenient, some regard being had to economy of space.
4. Merchants are supposed to keep a general assortment, and physicians to be "old school" unless otherwise specified.
5. All these items are referred every year, usually between Jan. 1 and Mar. 16, to the Town Clerks, Postmasters or other prominent men of the several towns and villages for correction.
6. We earnestly solicit corrections from all other persons who may notice things which they know to be errors.
7. Of course changes are constantly occurring, so that one need not expect to find this Directory absolutely correct all the year round, but use it with this understanding and you will find it very valuable.
8. To all who have assisted in the preparation of this Register the editor expresses his sincere thanks.

..Brattleboro Retreat..

A Hospital for Nervous and Mental Invalids.

It is situated upon the borders of one of the most picturesque, healthful and attractive villages in New England. It has a wooded park of more than fifty acres. It has more than ten miles of drives and shaded walks within the grounds. It is supplied with an abundance of pure spring water from the neighboring hills. It has a large gymnasium fitted with modern appliances, a billiard room and a bowling alley. It employs all modern means for the treatment of nervous and mental disorders, including nervous exhaustion. Especial attention is given to light and ventilation; the wards are made attractive and home-like, and the fullest personal liberty is granted to all. Patients will be received who wish to place themselves voluntarily under treatment. Each patient receives INDIVIDUAL attention and is carefully studied. Inebriates and those addicted to opium, chloral or cocaine habit will be intelligently treated. The Retreat is easy of access from points in New York State, New England States and Canada, and is but ten minutes walk from the railroad station. The weekly rates vary from four to ten dollars, according to requirements. This includes a single room, board, medicinal treatment, nursing, medicines, laundry and occasional carriage rides. The medical certificate required by law can be procured upon arrival of the patient at the institution. Special rates for permanent residents.

LINDEN LODGE

A commodious and well appointed sanatorium for the treatment of nervous invalids and habit cases, located one mile distant from the Retreat, is delightfully situated upon high ground, commanding meadow, river and mountain scenery.

THE RETREAT FARM

Is one of the largest and best equipped in the Connecticut River Valley, and its products are used exclusively by the institution.

THE GOVERNOR

of New Hampshire is chosen biennially according to Statute of June 1877, on the Tuesday next after the first Monday in November, by a majority vote. In case of no election by the people, the Legislature elects one of the two persons having the highest number of votes. The constitutional title of the Governor is *His Excellency*.

To be eligible to the office of Governor, one must be thirty years old, and an inhabitant of the State for seven years last preceding his inauguration. In case of the death, disability or resignation of the Governor, the office is filled by the President of the Senate; and in case the offices of Governor and President of the Senate both become vacant, then the office of Governor is filled by the Speaker of the House of Representatives.

The Executive Council consists of five Councillors, elected by the districts, at the same time and in the same manner as the Governor.

The Governor and Council appoint all judicial officers—the attorney general, justices of the peace, notaries, coroners, judges of probate and general and field officers of the militia.

CHRISTIAN SCIENTISTS.

The Rev. Mary Baker G. Eddy, the discoverer and founder of Christian Science—which is now rapidly spreading itself over the civilized world as a just interpretation of the simple teachings of the Master—was born in the town of Bow, N. H., adjoining Concord, at which latter place she resides. Thesed from which this great tree has grown began to take root in her mind and heart and life in 1866. In her own words she says, "In the latter part of 1866 I gained the scientific certainty that all causation was mind, and every effect a mental phenomenon." She began teaching Christian Science in 1867. In 1876 she formed the first Christian Science Association and was for years the editor and proprietor of the Christian Science Journal. Mrs. Eddy is the author of "Science and Health with Key to the Scriptures"—the only authoritative text-book and manual of Christian Science—of which system she is the great and logical exponent. The charter of the first church was obtained in June, 1879. It was organized in Boston and Mrs. Eddy was called as its first pastor, being ordained in 1881. This year (1901) this Mother church has a membership of 20,000, and is rapidly growing. Five hundred branch churches are incorporated; upwards of seventy church buildings have thus far been erected, and many more are in process of construction in this country and in Europe. The believers in Christian Science are estimated to number 700,000. There are in New Hampshire four incorporated churches of this denomination, and twelve more societies who are holding church services regularly.

NOTE.—In the above Banks the column "Amount due Depositors" belongs to the Savings Department of each institution.

The tax paid on Savings Bank deposits is 4 per cent. per annum on the general deposits, and one per cent. on the special deposits or guaranty fund. The tax for 1900 was \$24,927.80. The tax is paid to the towns in which the depositors reside; but in cases where depositors reside outside of the state, or where their residence is unknown, the tax is paid into the Literary Fund, of which each town receives its due share for the support of its public schools.

POSTAGE RATES.

Corrected to March 1, 1907.

All mailable matter is divided into four classes: First, written matter; second, periodical publications; third, miscellaneous printed matter; fourth, merchandise.

FIRST-CLASS MATTER.

Mailable matter of the first class embraces letters, postal cards, and all matters wholly or partly in writing, except as hereinafter provided.

Every letter or written communication, any distance within the United States, Guam, Hawaii, Porto Rico, Cuba, Philippine Islands, or Tutuila (Samoan possessions), 2 cents for each ounce or fraction thereof, and that all mail matter sent from the United States to these possessions shall be subject to the United States domestic classification, conditions, and rates of postage.

Drop letters, 1 cent for every ounce or less. At offices where free delivery by carrier is established, 2 cents for each ounce.

Book manuscript, manuscript for magazines, periodicals, newspapers, and music manuscript are now subject to full letter rates of postage, except they be accompanied by proof-sheets, or corrected proof-sheets, when the rate will be 1 cent for each two ounces or fractional part thereof.

Matter produced by the typewriter is subject to postage at letter rates.

Letters deposited at a post-office for mailing with less than one full letter rate of postage—2 cents, prepaid—will not be forwarded in the mails, but will be held for postage.

Matter produced by the electric pen and papyrograph processes, which is not in the nature of correspondence, may be received and transmitted in the mails at third-class rates, when properly presented for mailing.

Matter which is in writing, or other matter containing a written inscription in the nature of personal correspondence, or representing monetary value, and matter which is sealed against inspection, is first-class matter.

FORWARDING OF MAIL MATTER.

Postmasters will forward at the request of the party addressed, and without additional charge for postage, letters which have one full rate (2 cents) paid thereon, parcels prepaid at first-class rates, postal cards, official matter. On mail matter other than first-class postage must be fully prepaid before it can be forwarded.

A registered letter may be forwarded in accordance with the written request of the person named in the address, the same as any letters prepaid with one rate of postage, without additional charge for postage.

SECOND-CLASS MATTER.

Mailable matter of the second class embraces newspapers and other periodical publications.

THIRD-CLASS MATTER.

Mail matter of the third class embraces books, circulars, proof-sheets, corrected proof-sheets, with manuscript copy accompanying the same, photographs, and all matter of the same general character; and the rate is 1 cent for each two ounces or fractional part thereof.

The rate of postage on transient newspapers, periodicals, and magazines is 1 cent for each four ounces or fractional

part thereof. Seed, cuttings, bulbs, plants, are 4 ounces for 1 cent.

The term circular is defined to be a printed letter, which, according to internal evidence, is being sent in identical terms to several persons. A circular shall not lose its character as such, when the date and the name of the addressee and of the sender shall be therein written, nor by the correction of mere typographical errors in writing.

Upon matter of the third class, or upon the wrapper inclosing the same, may be written the name and address of the sender, preceded by the word "from;" simple marks may be made to call attention to any special word or sentence.

There may be written on the cover or blank leaves of any book or printed matter of this class, a simple manuscript dedication or inscription, that does not partake of the nature of personal correspondence. All packages of matter of the third class must be so wrapped that their contents may be readily examined by postmasters.

FOURTH-CLASS MATTER.

Mailable matter of the fourth class embraces all matter not included in the first, second, or third classes, which is not in its form or nature liable to injure the contents of the mail bag, or harm the person. Postage rates thereon 1 cent for each ounce or fractional part thereof.

Upon any package of matter of the fourth class, the sender may write or print his name and address, preceded by the word "from," and there may be also written or printed the number and names of articles inclosed; and the sender thereof may write, or print upon, or attach to any such article, by tag or label, a mark, number, name or letter for purpose of description. The limit of weight of package is four pounds, and must be so wrapped that its contents can be examined by postmasters.

But if by inadvertence any article of the third or fourth class should reach the office of delivery without being prepaid, double the usual rates will be charged, to be collected on delivery.

Canned goods in hermetically sealed tin cans, which do not contain any liquid, are mailable as fourth-class matter.

CAUTION.

All parcels of merchandise and all printed documents sealed or pasted so as to prevent examination at the post-office, will be charged letter postage.

Letters addressed to initials or fictitious names, are not deliverable unless the address contains a designated place of delivery.

All domestic letters must be prepaid a full rate (2 cents), otherwise they are sent to the dead letter office.
